

In one day we'll have you stepping *through*, not over, your tub.

Are you worried about getting in and out of your bathtub safely? Or worried about a loved one? Bathroom falls are a real threat, particularly to people who are on blood thinning medicines or who are not as steady on their feet. In one day we can have you stepping *through*, not over, your tub.

Buckeye Home Medical Equipment introduces TubCut™, brand new technology that lets us cut an opening in your tub...then

finish it to perfectly match your tub, be watertight and seamless with a factory-made look. It's amazing. Add a shower curtain, maybe even a shower chair if you like, and you're set.

It doesn't matter how old your tub is.

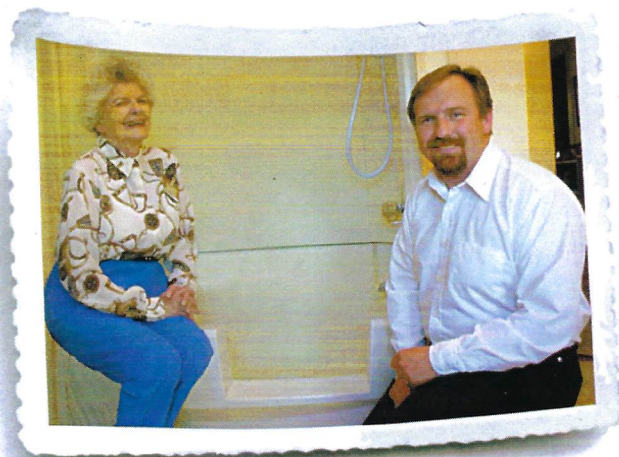

It doesn't matter how old your tub is, whether it's fiberglass, porcelain, steel or cast-iron. Tile doesn't matter.

We can cut any size or shaped tub, including soaking tubs, whirlpools, deck mounted and tiled-in tubs. It updates your bathroom at a fraction of the cost of remodeling. Our Richard Gooding makes it happen neatly and cleanly in just one day.

Your TubCut™ can be reversed too!

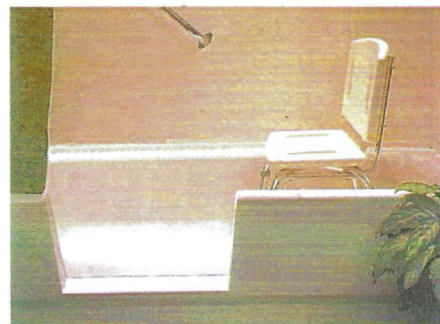

Should you ever decide to sell your home and feel a full tub

"I love my new TubCut."

Jeanne Leonard with Richard Gooding

would enhance the price, just keep "the cut" Richard makes and he can come back and redo it and you'll never be able to tell it has been cut. Contractors, interior

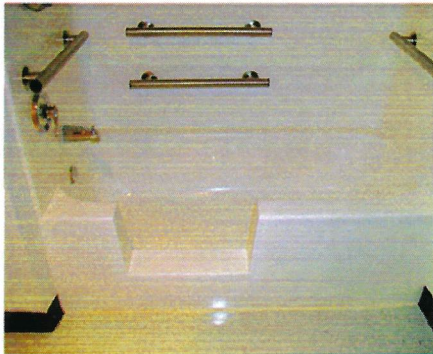

designers, and realtors like that aspect too.

And here's the *best* part.

All TubCuts have 90 Days Same As Cash. Make a down payment and you'll have 90 days to make the other three payments.
